Work History

Head of Special Programs, Crossref - Oxford, UK

10/2020 - ongoing

- Program management of high-level initiatives across teams at Crossref and with other partner organizations. Driving technical implementation, documentation, support, communication, outreach and adoption.
- Creation of a framework for engagement with external initiatives to determine level of engagement/resources needed

Interim Director of Member & Community Outreach, Crossref - Oxford, UK

03/2020 - 07/2020

- Parental leave cover for the Director of Member & Community Outreach
- Participation in organization board meetings and strategy sessions, focusing on open scholarly infrastructure and Crossref's mission
- Leading on initiatives with partner organisations
- Team management and representation of Community Outreach in Crossref Senior Leadership

Head Of Community Outreach, Crossref – Oxford, Oxfordshire

04/2017 - 10/2020

- Heading up Crossref's outreach activities across international publishers and new stakeholder groups such as preprint servers, funders, research institutions and developers.
- Managing a team of two (UK and US-based) to extend our LIVE locals program. Launched Crossref Ambassador Program in January 2018 to provide recognition to Crossref advocates and to provide better support to international members. Running the Crossref sponsors program to better support small international publishers.
- Involvement with industry groups such as Metadata2020 (advocating for richer, connected metadata to help research), the FREYA Project (promotion of uptake and use of persistent identifiers), Scholix (improving data citation and showcasing links between data and publications).
- Collaborating with ORCID, DataCite, Jisc, OpenCon on complementary initiatives.
- Preparing content for and speaking at industry and cross-industry events and workshops
- Product outreach on Crossref's APIs and other specific tools such as Metadata Manager

Member & Community Outreach, Crossref – Oxford, UK

02/2015 to 04/2016

- Heading up outreach efforts at Crossref for publisher members
- Establishing and running a program of Crossref LIVE local events (free day-long educational workshops) to provide information, training and get feedback on Crossref services.
- Planning and organising Crossref's annual meetings, attending and speaking at relevant industry events
- Helping with the rollout of Crossref's new brand identity and website
- Working with industry groups (ORCID, DataCite, OpenCon) on initiatives around identifiers, research integrity, connecting research.

Product Manager, Crossref – Oxford, UK

03/2012 to 02/2015

- Working with publishers to promote uptake of Crossref services including Crossref Similarity Check (originality checking), Crossmark (showing updates to published content) and using Crossref APIs for Text and Data Mining. Written and in-person reporting to the Crossref Board about these initiatives.
- Liaising with colleagues in operations and Research & Development regarding changes to these products.
- Providing help and training for publishers implementing the services (via email, webinar, recorded videos, in-person seminars, at conferences).
- Working with colleagues to arrange communications about the services.
- Running working groups and committees to collect feedback on new and proposed services, and to support existing initiatives.
- Working with wider industry groups in complementary areas: Asian Council of Science Editors, COPE (Committee on Publication Ethics), ISMTE (International Society of Managing and Technical Editors), European Association of Science Editors.

Publishing Manager - Electronic Editorial Systems Taylor & Francis Publishers –

Abingdon, UK

09/2008 to 03/2012

- Overseeing the roll out of online submission and peer review systems across the Taylor & Francis portfolio of journals.
- Running two teams working on-site and remotely (14 staff) who performed journal peer review management, originality checking, and the implementation of online peer review systems.
- Speaking at and running events and workshops for editors on online submission systems and peer review.
- Running an originality-checking pilot across Taylor & Francis journals which was then extended more broadly.
- Involvement with external industry groups and committees: COPE, Crossref Similarity Check Committee, ISMTE.

Managing Editor - Electronic

Taylor & Francis Publishers – Abingdon, UK

07/2007 to 09/2008

- Providing support and training to a portfolio of journals using online submission systems.
- Overseeing the peer review process for journals managed in-house. Attending and running events on peer review systems and publication ethics.

Publishing Editor - Electronic

Taylor & Francis Publishers – Abingdon, UK

06/2006 to 07/2007

- Working with journal editors to set up and run online manuscript submission and management systems to an agreed schedule.
